

Lacramioara Diana Robescu

Dean of the Faculty of Energy Engineering

Diana is a Habilitated Professor in the Department of Hydraulics, Hydraulic Machinery, and Environmental Engineering at the National University of Science and Technology POLITEHNICA Bucharest. She holds a PhD in Energy Engineering and has secured over €1 million in competitive external funding, serving as project manager or partner manager.

She has extensive experience in coordinating and contributing to national and international projects focused on institutional development, quality assurance, skills enhancement for students, and the advancement of master's, doctoral, and adult education programs.

She has also served on the Scientific Committees of various national and international conferences and workshops. Her academic and research contributions include the authorship of ten technical books, eight student textbooks, and three patents, alongside more than 120 publications in national and international journals and conference proceedings.

She is currently the local coordinator at POLITEHNICA Bucharest for the European Universities Alliance EELISA.
